(a) Exact false-precision mechanism
all-zero probability
transition scale $n\varepsilon$
event mass
$p = 0.5$
$p = 0.1$
$p = 0.01$
solid: exact circles: Monte Carlo
(b) Exploration gate
selection-error frequency
transition scale $n\varepsilon$
$p = 0.5$
$p = 0.1$
$p = 0.01$
naive
gated
